

Alfido Tech Instagram Growth Strategy

Data-Driven Content Plan · Shaik Yasmin · Alfido Tech Data Science Internship

PERFORMANCE BENCHMARKS

Best Days	Best Times	Top Format	Target Eng. Rate	Posts/Week
Wed & Thu	8AM · 12PM · 7PM	Reels + Carousels	≥ 3%	5 posts

WEEKLY CONTENT CALENDAR

Day	Time	Format	Content Theme
Monday	08:00	Image/Quote	Motivational data fact or tip of the week
Wednesday	12:30	Carousel	ML/DS concept in 7 slides (save-worthy)
Thursday	18:00	Reel (60s)	Python/SQL trick with code overlay
Saturday	10:00	Reel/Video	Intern spotlight or project walkthrough
Sunday	19:00	Story Poll	"Next week topic?" interactive community post

5 STRATEGIES TO INCREASE ENGAGEMENT

1	■ Post at Peak Windows Schedule content at 8AM, 12:30PM or 7PM in audience timezone. First-hour engagement velocity drives algorithmic amplification up to 3×.
2	■ Lead with Reels (60% of content mix) 60-second Reels covering one concept reach non-followers via Explore. Target: "What is X in 60 seconds" format — high shareability.
3	■ Carousel Posts for Education + Saves Step-by-step concept carousels (7–10 slides) earn the highest save rates. Saves signal quality and push content to new audiences.
4	■ ■ Weekly Story Polls & Quizzes Every Wed + Sat: post a Story poll or question sticker. Interactive responses boost Story feed rank and grow community loyalty.
5	■ 60-Minute Comment Response Protocol Reply to every comment within 60 minutes of posting. Double comment count, signal community health, boost organic reach.

HASHTAG FORMULA PER POST

5 Niche Tags < 100K posts (e.g. #mlprojects)	5 Mid Tags 100K–1M posts (e.g. #learnpython)	5 Broad Tags 1M–10M posts (e.g. #datascience)	Rotate Sets 3–4 sets, cycle weekly	Avoid > 50M posts (buried instantly)
